TO THOSE WHO DID NOT RECEIVE my 1930 descriptive and illustrated catalog, giving full descriptions of all varieties. I will be pleased to mail them one on request. As I have sold short on a number of varieties already, I have decided to only issue a price list instead of a regular catalog for this season and have *reduced the prices* of my bulbs so as to give my customers the benefit of the difference in cost of a new catalog and list.

In the firm belief that no other practical way has been found to definitely decide a dividing line between a "wholesale" and a "retail" buyer, I have printed in my list this year a price schedule which ranges from one bulb to a thousand. I do this in the belief that the quantity purchaser is entitled to better prices regardless of his status as a grower.

Visitors are always welcome any day of the week at our gardens, and it will be a real pleasure to show you most of the other better originations as well as our own fine things.

Sincerely yours, **JOHN H. McKIBBIN.**

What SIZE Do You Want to Buy?

We are offering only large size bulbs at retail this year, but are offering the majority of our varieties at wholesale in all different sizes; those varieties offered retail only, no small bulbs or bulblets will be sold.

We will sell 25 bulbs, one variety, and size, at wholesale prices.

If you want to buy Gladioli bulbs to get the most and best blooms which 95% of the people do who buy in the small quantity, the large bulbs are the ones to buy. It stands to reason that a full sized matured bulb will produce a taller spike and larger bloom with many more florets to the spike and also more spikes. Many varieties produce from two to four spikes per bulb. The medium size will produce a good spike and large bloom, but not so many spikes, and a few more bulblets which most people throw away.

Most of the small size will bloom, but the spike will not be so tall nor so many florets to the spike and will not bloom as early as the larger bulbs, but you can grow them to full size No. 1 bulbs the first year. So take your choice and we will do our best to please you.

NOTICE

Please Read Before Ordering

No retail orders filled for less than \$1.00 as all orders for less than \$1.00 are filled at a loss.

Where offered by the dozen, six may be ordered at half the dozen price. Less than six at single rate, or as otherwise stated in our price list.

SUBSTITUTION

If any varieties are out of stock when your order is received, I will substitute a similar or more expensive variety. If this is not satisfactory, please advise when ordering.

Safe arrival of bulbs is guaranteed to any point within the U. S. A. and Canada.

HEALTHY BULBS! We have as fine a stock of Gladioli Bulbs to offer this season as ever has been placed on the market. We have used every precaution to eradicate any disease which gladioli bulbs may be affected. The results surely have been gratifying. It is surely a pleasure to be able to offer a stock of this kind to my friends and customers, knowing it is bound to make more friends and customers in the future.
